

Spread the dominoes out in front of you. Sort them into those with an even number of spots, and those with an odd number.

Find all the dominoes with a total of 5 spots. How many are there? Look at the pairs that make 5. Choose other numbers and do the same.

Can you make a rectangle using 2 domino tiles? What about 3, 4, 5, 6, 7? Here's a rectangle made with 6 dominoes to get you started.

Domino Activities

Can you make up your own domino activity or game?

Find the dominoes above from your set. Can you make a square with them that has the same number of spots on each side?

Turn over to read the rules for the usual game of dominoes.

Play the usual game of dominoes and invent your own scoring system.
